Remember you are in charge. Be THANKFUL. Forget about regret. Do nice things for others. Don't look back you're not going that way.

Dear Children,

"One's destination is never a place but a new way of seeing things". The silver lining of vacation promotes creativity, strength, relieve stress, rejuvenate, reinvigorate, better sleep, enhance memory, prevent burnouts and build lasting memories. The summer vacation is the most unenviable part of school life which resume with new energies. It is the peak time for all to refresh, recoup and build up innovative strategies for the coming future. It gives the time to think about the past, channelize present and plan for the future. "We need to make do with small BREAKS". BLPS provides valuable experiences in which children can know about themselves and the world around them. I would like to thank all members of school and parents for Supporting us and great wishes in advance for continuing during the summer. Dear students Tide over the unbearable heat and make up your deficiencies. **Happy Vacations.. GOD BLESS US ALL!**

Being new to Kapurthala, I and my family were quite reluctant to shift to the city. Out of the well known schools, we selected Bawa-Lalvani school for our kids. To our surprise, our kids easily accustomed into the school environment. As a parent, I feel much contented to see my kids happily going to school every morning and coming back full of energy. I am glad to have made a correct choice of school for my kids.

Vision of BLPS:

 On 3 May 2016, I rejoined my previous school “Bawa-Lalvani Public School”. I came here very late because I decided to stay in hostel for the next 4 years . I came back in this school after spending a month in my hostel. I came here from Unison World School , Dehradun . I am very happy to rejoin my previous school . My teachers and friends helped me to complete and revise my work and principal mam also took special care of me. Each and every teacher explained me everything in a very interesting way. I also got special revision worksheets from my subject teachers. During my free lessons, I took extra classes from my teachers. Now I think that I am ready for my exams. Truly this could not be possible without our cooperative teachers and principal.
