Dear Students

"From tiny seeds, grow mighty trees"

It struck me as one of the most profound thing I have ever reflected on. Within these young ones we plant tiny seeds each day and we water them with hope, kindness and love. We have been diligent caretakers of these little ones and we will strive to meet the needs of each student and encourage them to achieve their fullest potential. Congratulations to the proud parents of young graduates. Together let us hand hold and guide them to a fruitful and enriching journey to formal schooling.

Thank you parents for your support in nurturing these young minds.

Ekta Dhawan - Principal

I feel very glad to share my views here that BLPS has progressed by leaps and bounds in the field of academics as well as co-curricular activities. The name and fame achieved by the school in past few years is really commendable. Inviting renowned trainers like Shiamak Dawar's team and organising inter-school Sahodya competitions is highly appreciable. Such activities truly help Students develop all round personality. It's a pride moment that my children are getting quality education from this school. The credit goes to diligent efforts of the authorities, administrators, teachers and every one associated with team BLPS. I wish best of luck to team BLPS and hope many other success stories to come up in the future.

Dr. Ashwani Rana F/o Divyanshi Rana and Divija Rana

Kindergarten Graduation Day Celebration:

Kindergarten Graduation Day - Get. Set. Grow...

It is a Proud moment. The Tiny Tots of KG2 are getting promoted to primary shoe, with a pride in heart and blessings of teachers who always wish for their better future. May God bless these tiny "graduates" as they continue their education in the main stream of the school.

Gardening Activity:

Along with the fun of being outdoors, gardening helps children learn valuable lessons about patience as they wait for vegetables to grow, responsibility as they see how necessary their care is to the garden, and love for the nature. "They learn about nurturing a life and what it takes to keep something alive". Students sowed vegetable seeds using organic manure.

Nursery A	Nursery B	- Spinach
K.G.IA	K.G.IB	- Coriander
K.G.IIA	K.G.IIB	- Lady Finger

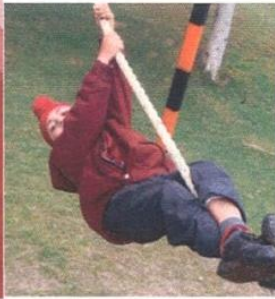

Activities of the Month :

Fine Motor Skills and Gross Motor Skills:

Coloring is a activity that helps children to develop cognitively and psychologically. The actions, motions and precise grip involved in coloring aids in the development of the muscles of the fingers, hands and wrist. Fine motor skill development can help children write more skillfully as well as manipulate small objects. Whether they stay in the lines or not, coloring fosters a creative spirit and an appreciation for visual differences.

There's one more reason why your child's fine motor skills progress more slowly: They are closely linked to cognitive development. In order to build a fort with blocks, for instance, a child must be able to think in a three-dimensional manner. Adding limbs, hair, or facial features to an incomplete picture of a person means that your child is capable of understanding that two-dimensional drawings can symbolize real people. Your child must mentally compare the picture with stored images of what people look like to figure out what's missing from the drawing, and he must be able to manipulate a pencil or crayon well enough to fill in the absent features.

Table Manners:

The first and foremost objective of pre-primary education is to ensure a well balanced development of children in the physical, intellectual, social, emotional, ethical and aesthetic spheres. The play way method is advocated as the most natural because joy is every child's birthright. We at BLPS believe in nurturing our students through a perfect blend of traditional as well as contemporary ways for the development of personality. This ensures society at large is benefitted with the well equipped students who can significantly contribute for its betterment. Public speaking and Stage fear are the prime focus areas for the world of today. Our little BLPIANS showed that they have overcome that fear also. I thank parents for such wonderful cooperation. CONGRATS TO ALL & GOD BLESS YOU MY DEAR CHILDREN! Hope to see you making more strides in future as well.

Parinder Kaur Coordinator KG Wing

Whether you're eating at home, dining out, or having dinner with friends, good table manners for kids are an important part of every meal. When you teach your child good table manners, you are giving them important tools for social interaction that will serve them for the rest of their lives. Plus, laying the groundwork for good etiquette at the dinner table means your children will more likely become pleasant dinner companions for family meals in the years to come.

Song of the Month

Do you know the month,
The month of the year,
Want to come & join me,
Will sing it loud & clear.
January, February, March, April, May,
June, July, August, September, October,
November, December,
are twelve months of the year...

Circle Hour :

Conversation :-

Q. In which month were you born?
A. I was born in the month of _____

Q. What comes after May?
A. June comes after May.

Q. What comes before October?
A. September comes before October.

Q. In which month do you get summer vacations?
A. In the month of June & July we get the summer vacations.
