Dear Parents, Teachers and Students,

The beginning of the new Academic Term is always an auspicious time that brings along fresh wave of enthusiasm and new faces to the School, renewing and reinvigorating the school community that we are privileged to be a part of. It is an opportunity to resolve and cultivate dreams. "The school radiates a refreshing air of anticipation around the campus". I welcome you warmly to the 2017-18 Academic Year with excited anticipation and high hopes. Let's get on with sculpting a successful year ahead! We stand firmly committed to create an environment that stimulates CURIOSITY by enabling students to think beyond their exam based syllabus.

**I wish you all GOOD LUCK**

**Ekta Dhawan - Principal**

BLPS is a name that thrives excellence and perfection. Not only the school stands bold amidst competitions, but also preserves ethics and honour. Being the top ranked school here, the reputation persuaded me to put my child in the hands of world class educators, who in turn have never disappointed, to my satisfaction. The Principal and staff present the utmost dedication and perseverance starting as early as kindergarten phase. Personally, I feel that my son is in better hands as far as the overall conditioning and upbringing is concerned. So far, he has learnt well and feels enthusiastic towards challenges presented. He has taken up good behaviour and etiquettes due to lot of hard work and persistence of the teachers working around the clock. Also he has excelled exceptionally well towards extracurricular activities. All thanks to the school and staff for preserving parents' trust and maintaining standards to the highest level.

**Mr. Aditya Bhalla (Father of Aryan Bhalla KG-I-B)**

### Strengths of children with bodily-kinesthetic intelligence

For a child, who is strong in bodily-kinesthetic intelligence, here are some ways in which you can provide interesting learning opportunities.

The students respond very well to physical stimulus. They have excellent physical skills which include gross motor skills and fine motor skills.

### Reinforcement :

Praise and encouragement are the building blocks of emotional and social development for all children, regardless of their special needs or disabilities. This strategy is as simple in planning and execution as it sounds. Letting your child with special needs know, when their behaviour is acceptable, is a great way to subtly implement a good cycle of praise and encouragement. A bright smile, an encouraging pat on the back or a quick hug goes a long way in letting our children with special needs know that we care about their work and development, and gives them a needed boost of confidence each time.

## Indoor Games:

### Indoor Games :-

Children are wonderful gifts of God. A home with children is better than one filled with gold. They bring happiness, hope, and bundles of blessings from God. Indoor games provide the needed shelter from harsh weather conditions for kids, while at the same, giving them the opportunity to be themselves. At the same time, these games ensure balanced growth for their children. Games make discipline practicable.

## Food Party:

### Food Party:-

To inculcate the value of sharing, Children had a food party at the end of this session (2016-17). The whole K.G wing children participated in the party. Children brought different types of food. They shared and enjoyed the food.

## Song of the Month

Head and shoulders knees and toes  
Knees and toes  
Head and shoulders knees and toes  
Knees and toes  
eyes and ears  
And mouth and nose  
Head and shoulders knees and toes  
Knees and toes

New session is the start of a new adventure, new challenges to face, new memories to make and new obstacles to overcome. This fortnight, children learnt about indoor games, To inculcate this concept, different games were played by kids of Nursery B like Carrom, Ludo and Musical Chairs. To lighten their fear of exams, they did cycling and colouring also. Children really enjoyed coming to school during exams days. On the last day of their academic session(2016-17), students of K.G Wing had food party in which they shared their food with each other.

Now let us welcome this new Academic session with new energies and new hopes... to experience new things and to learn things you never knew before... May you make the best of this coming year with your hard work and patience... All the best for the New Session my children.

Ms. Rupinder Kaur KG Teacher

## Circle Hour : Conversation:-

Q. What do you do with your eyes?  
A. I see with my eyes.

Q. What do you do with your nose?
