PARENTAL PLAUDITS

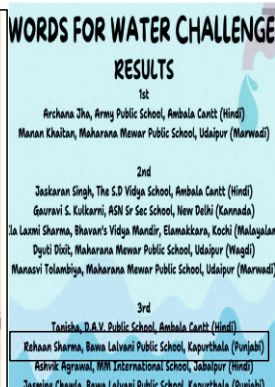

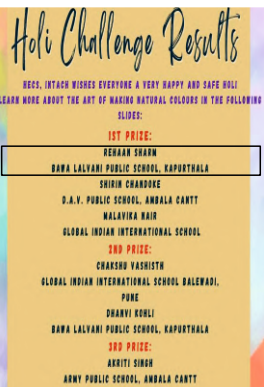

For these tiny tots, Kindergarten plays a very significant role in providing knowledge in a practical as well as interesting manner, because for them something seen in real is easily perceived than something we read in books. At BLPS education is just not limited to books, rather be a fun and recreation too. I highly appreciate the core management from Principal, coordinators and teachers who really support and enable children to become young adults who can recognize, have access to and take up opportunities that will make them compassionate people with integrity and moral strength. My gratitude towards BLPS TEAM for creating so many success stories by their creative learning methods.

Wish you all the very best, RISE HIGH AND SHINE HIGH.
