Dear Parents and Guardians, Success lies in good education, and good education inculcates values. Right values help in holistic development of the personality of the child. At BLPS we strive to instil values in the most blessed of God's creation with a mixture of immaculacy and enthusiasm. Summer holidays are approaching and families look for valuable experiences. Children learn a lot during this time. Please ensure that you take out some time to read to them every day. Encourage a good act daily i.e planting a tree, watering the plants or involving your child in household activities. You will see a marked difference in the child. Happy Summer Vacations!

We congratulate the BLPS team for enabling my child to perform well. Teachers are concerned with every activity of the school. Friendly nature of the teachers and useful feedback given to us is appreciable. We have observed, our child has become more vibrant and active, and this could be possible because of the environment in the school. We made a right decision to choose BLPS for the bright future of our child.

TEACHER'S MESSAGE

Teaching is a rewarding career with excellent potential for growth and advancement. It is a great way to set yourself up for success. Being a teacher is challenging at times. Even the most difficult day of teaching will provide you with some positive experiences. A teacher needs to enhance her knowledge and understand the child's strength & weakness. Instilling a love of learning into a child's life or making him feel valued are priceless benefits of teaching.
