ROAD SAFETY SKILLS

Kindergarteners studying in Grade KG-I Dazzlers were actively engaged in learning about adapting 'Road Safety Skills'. Becoming road-savvy is a key life skill for Kindergarteners. By making sure young students know how to recognise dangerous situations and understand their responsibility as a pedestrian, we can help them gain the confidence as they need to stay safe on the roads as they get older. When it comes to the safety of the children, no compromise is to be made. They should be taught about road safety as soon as they are old enough to step out of the home.

GROWING UP WITH DISNEY

Our Preschoolers studying in Grade - Nursery participated in a role-play activity titled, *Growing up as a Disney Child*. Isha, (Form Tutor) alongside parents engaged with our Preschoolers adapting to various Disney characters which have become beloved favorites for kids around the world. The objective of the activity was to bring the Disney magic alive in their house with Disney costumes that Make young students Feel, Character artists. In fact, most of their favourite characters — Mickey Mouse, Daisy Duck, Genie, Aladdin, Snow white, Rapunzel, Olaf, among others — came alive in the activity tutorial !

HAPPY LOHRI

Our kindergartener, Yashika Sharma (Grade KG – I Dazzlers), mentored by Suchika - Form Tutor, extended greetings through a monologue to everybody on the occasion of Lohri and wished for 'endless happiness' in everyone's lives. She expresses, "Greetings to all on the auspicious occasion of Lohri, I wish you all peace, prosperity and pray that this festival will bring endless happiness to you and your loved ones."

PRINCIPAL WEEKEND TASK

Our kindergartens participated actively in the 'Principal's Weekend Home Task (WHT) - XI. The task was titled 'Dining Etiquette - Washing Dishes'. The Parents tried to instill in all children that Cleaning up after eating is an important life skill! In fact, every responsible member in the family is required to clean dishes promptly and place them neatly!

**DR. EKTA DHAWAN**
PRINCIPAL

Dear Parents & Students

Greetings! The world we live in today looks drastically different than the one we knew just a month ago. This transition has not been easy. BLPS intends to open the campus once again for the students of the Class of 2020-21, and welcome back the current students that we have all missed so much. Though the kindergarteners remained active throughout the session through various virtual activities. Now is the time to have them back in the campus and make it more vibrant and colourful. The benefits of BLPS education extend beyond the brick and mortar of our building. Our talented faculty, through exceptional pedagogical practices and technological mastery, was instrumental in our successful and smooth transition to hybrid. BLPS is committed to provide asynchronous lessons supported with live instruction for all students. We remain confident that the qualities that make BLPS so special, from our personalized approach to learning and our intimate class sizes, place us in an exclusive position to continue the mission of educating the hearts and minds of young men and women regardless of what the future holds. God Bless us all !

**Deeksha Khosla**
Mother of Samarthya (KG I - B)

I feel happy for my child, Samarthya Chawla of KG I Blossoms, to be a part of Bawa Lalvani family - one of the best schools in the city. My child has been in the school from last 2 and half years and has grown up to be a sanguine boy. The atmosphere in the school is very inspiring, joyful and positive for the children. Continuous motivation and encouragement from the respected Principal ma'am Ms. Ekta Dhawan, and the Form Tutors has helped a lot to instill positive confidence in my child. The efforts done by the school to make children engaged with their studies and learning different craft activities during Covid - 19 are laudable. The weekly home task given by the Principal ma'am has also been a very good way to instill good manners in kids. I am very happy with the school and wish the school a prosperous future.

MAKING A SNOWMAN

Our Young ones studying in Grade KG II were actively engaged in Winter Craft tutorials titled 'Making a Snowman'. Form tutors and Parents assisted young students through the tutorial. Our climate might not necessarily be cold enough to build a 'real' snowman. Why not do something a little bit different for Winter craft within confines of our homes and talk about why the snowman is a symbol of Christmas for everybody around the world? Making a snowman is a favorite activity for kids in the winter. Almost everyone knows how to make a snowman. Exploring, creating, and discovering is how our Kindergarteners learn! Our young students must build a snowman using only the materials available at home.

LET'S MAKE A KITE !

Nowadays children mostly play with electronic toys and have rarely experienced the joy of simpler things like making a kite and flying it. Kites are definitely among the coolest toys one can make along with children. Kite making craft delights kids and brings in a competition by seeing who can make the prettiest kites. We encouraged our kindergarteners studying in Grade KG I to go kite flying and look up once in a while than always down at their gadgets! Our kindergarteners got down to making a basic kite with help from Parents – all they needed is some paper, a couple of sticks to make the framework and some glue. Making a kite together with our kids is a wonderful learning experience and flying it together is loads of fun and very rewarding!

PARENT TEACHER MEET

School hosted Parent Teacher Conference of KG wing. Our Kindergarten Instructors had a busy schedule discussing child's progress and strengths in context to Hybrid Distance learning over screen. Through interactions parents came to know the social, emotional and cognitive development of the child. This meet aimed at providing a wider prospect for Parent & Teacher to plan & execute planning for better learning outcome of a child.

TEACHER'S MESSAGE

In a flash, we moved from real to ritual world, from teaching in room to teaching on the zoom. It reminds of a famous quote by Tim Berners- Lee, the inventor of World Wide Web, 'The Web as I envisaged it, we have not seen yet. The future is still so much bigger than the past.' The education also has switched to online teaching and learning platform, making learning limitless. Stay home, Work from home and Learn at home are the new realities now. I am sure that through reality technology, we would be able to cater to the needs of all types of learners and produce highest level of immersive and differentiated learning. Therefore, I want to explore myself and learn new technologies.

Mandeep Kaur
KG Instructor

CIRCLE HOUR : CONVERSATION

What do you say....

Q1. When someone gives you something.
Ans. I say "Thank you".

Q2. When I hurt someone.
Ans. I say "Sorry".

Q3. If you want something?
Ans. I say "please".

Q4. When you enter the class.
Ans. I say "May I come in".

SONG OF THE MONTH

We are Indian bold and free
We got a lovely country.
We are Indian bold and free
We got a lovely country.
We salute a flag with a love and pride
Sing Jan Gan Man standing side by side
We are Indian bold and free
We got a lovely country.
