**HOLIDAYS: Summer Break**

### HAPPY MOTHER'S DAY 2021

The Preschoolers studying in Nursery as well as Kindergarten studying in Grade KG I & II celebrated Mother's Day - 2021 with fervor to honour and respect Mothers. It was celebrated based on a theme 'A mother deserves a crown everyday.' To salute motherhood as well as recognise the influence of mothers in society! Preschoolers & Kindergarten crafted special Greeting cards and Crowns in commemoration.

### ART & CRAFT TUTORIALS - PAPER CRAFT HOBBY

Today's technology-driven children tend to be attracted to gadgets. Therefore, necessary to encourage preschoolers to pick up a craft hobby which may give them an exposure to outdoor activities, bring them closer to nature, and provide a suitable outlet to spike their CREATIVITY. To provide the same exposure, the Preschoolers studying in Grade Nursery were made to actively engage in Art & Craft Tutorials Dt: 03-05-2021. The activity aided in getting familiar, understanding and acquiring knowledge of shapes, figures and sizes. Preschoolers enjoyed handling paper to craft a 'Friendly Bear'. Preschoolers were instructed by Jyoti Sharma, Amanpreet Kaur & Isha Kashyap.

**DR. EKTA DHAWAN**  
PRINCIPAL

Dear Parents

I hope this message finds you healthy and well. We are in the home stretch of the school year, and we're looking to finish strong balancing hard work with celebrating our Eagles' successes. The changes this year have been challenging, but the students have shown their resilience and have lifted us up throughout the year. Their positivity and excitement for learning brighten our days, and we're grateful we're able to spend the time together. We only have a few weeks left until our students & staff gets a much deserved Summer Break! Our students have done a tremendous job till now to overcome so many challenges and I encourage everyone to really try and take a "brain break" on their weeks off. In addition to all of our extracurricular activities, the month of June will be a busy testing month as we look forward to hosting an exciting Virtual Summer Camp for the tiny tots of Kindergarten i.e. a bouquet of Fun Classes of Dance, DIY/Craft etc. I am of the strong belief that all the little ones will be participating in this camp with great zeal and enthusiasm and will enjoy it. In closing, I want to reiterate my gratitude for your continued support and wish you and your family good health and good spirits. Warmer weather and better times are here! God Bless us all !

**Tanu Behl**  
Mother of Trishika Behl (Nur - D)

A school is a building surrounded by four walls with future inside. I as a parent appreciate the efforts made by the school as well as the teachers. Whatever the situation may be, how so ever tough the times are, BLPS teachers have been exemplary in their efforts and hard work. I am glad to 'thankyou' the leader, the Principal, Dr. Ekta Dhawan and all faculty members who are engaging children in productive and constructive operations like giving weekly tasks, exercising and various joyful activities. Weeks passes by and the small little joy keep multiplying. In these apprehensive times of Covid-19 when whole human race is fighting against fear and uncertainty of existence, I would like to thank from my heart to the Principal, teachers and all other staff members who are burning midnight oil to give their best through this new mode of teaching i.e. Online classes.

## FANCY DRESS CONTEST 2021-22

Scholastic and co - scholastic activities are held at School to develop life skills and leadership qualities through experiential learning. Kindergarten Wing held its Annual Fancy Dress Contest 2021 Dt: 14-5-2021 for participation by the students of Grade KG-II. The Fancy Dress contest was an exciting time for our Kindergarteners. The online contest was very colourful & most participants were full of Zest. Our kindergarteners were encouraged to participate in the fancy dress contest to develop confidence, speaking to an audience. Participating in such contests aids in removal of stage fear in young students.

## SALAD MAKING COMPETITION 2021-22

Salads are a tasty, nutritious way to get our kids eating at least two servings of vegetables filled with the nutrients they need to grow big and strong, once our child finds his or her love for salads, they will be making them independently! Keeping in view, school conducted its Annual Intra class Parent Child Duet Salad Making Competition - 2021, Dt: 1-5-2021. The contest invited Parent/Child joint venture participation, Grade I through to Grade V. The students - parent teams prepared and displayed copious types of both vegetable and fruit salads such as Cucumber salad, Veg. Combo salad, Jumbo salad and many more indigenous salads using commonly available ingredients. The participants explained the specialty of their respective salad preparations & also, spoke about the nutritional importance of including salad in our regular diet for maintaining good health. The Contest was judged on the basis of the following criteria: a) Creative recipe including types of dressings Workmanship, b) Taste, c) Presentation / Plating when served & d) Nutritional value.

## TEACHER'S MESSAGE

*As a kindergarten instructor, my prime motive is to integrate young children into the world of learning by teaching them social skills, personal hygiene, basic reading skills, art, and music. My main focus is to prepare the children for the higher grades of elementary school, as well as certain aspects of life outside of the educational system. I personally feel that kindergarten is the bridge between early childhood care and elementary school; it is a very important year for students. I get over brimmed with euphoria when I assist these tiny tots to learn basic skills in reading and writing in addition to showing them how to behave in the classroom and play nicely with others, whether it's in a group setting or doing artwork quietly on their own. By making the little ones acknowledged with different shapes and colours, as well as how to recognize different letters of the alphabet and basic numbers - at least one through ten, I try to prepare them for grade one and further grades in elementary school, where they learn advanced concepts within these areas.*

**Isha Kashyap**  
KG Instructor
