Dear Readers,

"Teaching is a calling, too. And I've always thought that teachers in their way are holy angels leading their flocks out of darkness"- Jeannette Walls. PARENT'S MESSAGE

Imagine a school where your child anxiously looks forward to attend every day be it online or offline classes. A school where learning is fun, interesting and exciting. A school where feedback sessions with teachers are not about how the child is doing in his/her studies, but about who the child is and what positivity he/she possesses. I must compliment that your school is truly child centric in each and every way. A school where our children can grow intellectually, socially, emotionally and spiritually - as good human beings. And such a school for me is a legacy. The management and staff are very approachable & open to suggestions. Their focus is completely on child's well-being rather than only academic performance which is indeed refreshing. The warm and loving bonds that are forged between teachers and students is heart-warming. I pray BLPS continues to grow like this and strengthen its core vision which makes it stand apart tall from other schools.
