HOLIDAYS: 25th December

Achieving success is a challenge *A picture is a poem without words*

Kindergartners studying in Grade KG-I were actively engaged in an exciting and imaginative ' PICTURE TALK ' contest at School. This activity was aimed at pushing a Kindergartners' thinking, being imaginative & feel a sense of joy in communicating to an audience - a huge confidence booster. The Kindergartners were instructed by Manjula, Anu Sagar, Mandeep & Suchika. The contest was judged based on a) Clarity in voice & tone, b) Precision in explanation & c) Creativity in explanation.

Nadia

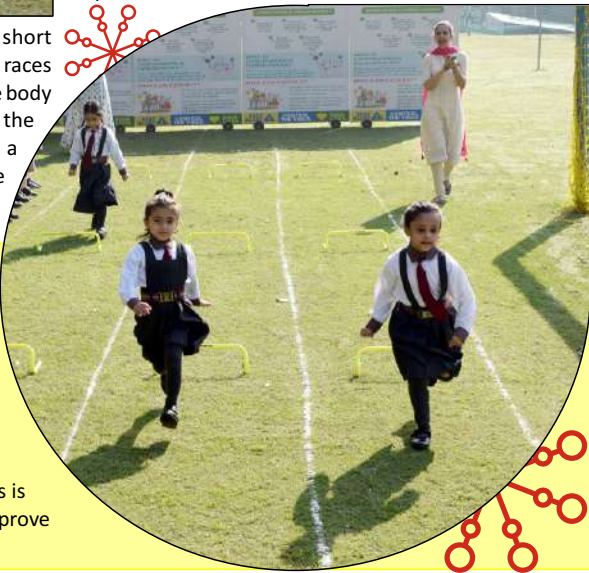

Samaira

Kartik

Preschoolers (Grade KG-II) were actively engaged in short obstacle course races. Our daily routine of Obstacle course races are a great way for preschoolers to use both the brain and the body and burn energy. Involving our preschoolers in constructing the course gives them a sense of accomplishment and builds a storyline in their head—adding an element of imaginative play to the activity.

Champions KEEP PLAYING UNTIL THEY GET IT RIGHT

Kindergartners studying in KG- I were actively engaged in Track & Field activity this month. This exposure to Athletics is part of an initiative designed to help young students to improve their physical fitness.

CRAFTNESS IS HAPPINESS

Kindergartners , assisted by their respective form tutors & were actively engaged in Art & Craft lessons 'learning to make greeting cards'. The cards were an expression dedicated to the festive season 2021. The kindergartners were introduced to the use of a variety of techniques to make the special cards, i.e. thumb impression, hand printing and bottle printing etc . Young students were thrilled engaging in Art & Craft.

Opportunities don't happen. You create them

Kartik Gupta (Grade KG I Adorables) participated in Young INTACH Culinary Culture contest 2021. Kartik's entry 'Punjabi Pinni' secured for him 'Best Entry ' while also, featuring him in the Young INTACH Explorer Newsletter (October- December 2021 Issue). The entry's to the Culinary contest were judged on the basis a) Cultural value & Use of Traditional Ingredients, b) Traditional preparation Technique & c) Originality of flavours.

Be the light that helps others see

Kindergartners have got into the festive spirit this month. Young students love decorating on the occasion of Diwali, specially to welcome Goddess Laxmi and to embrace prosperity and happiness. Celebrating Diwali with family is all the more fun and practising decorating ideas for their home brings them immense joy.

Principal's Message

Dr. Ekta Dhawan

Dear Readers
Greetings to all !
We have already cruised into the last month of the year. This is the time to reflect on the year gone by and count our blessings. By living in cosmopolitan environment, the children are mostly exposed to a life of abundance and comforts. Research has shown that gratitude plays a major role in a child's well-being and success. It also points at grateful children being happier, more optimistic, more engaged in their schoolwork, having higher grades and better social and emotional quotients. Thus let us make a conscious effort as parents and as teachers to help our children cultivate the habit of expressing gratitude. Also the Christmas is bringing forth the warmth of festivities this month. Rejoice with great enthusiasm and celebrate Christmas with your families. You can be the Santa Claus for someone who really needs help, a gift as small as a blanket or warm food might cheer them up more than one can imagine. As you celebrate Christmas and step into the new year, make wonderful memories that will linger in your home, make great friendships that will last a lifetime and may this season be filled with peace and joy. In the midst of festive fervour do not lose the motivation to study for your exams. The exams must be taken with the true spirit of gaining knowledge and not just by using your rote memory. You must spend time in understanding the concepts, getting into the depth of topics, taking the help of your teachers, who could explain you in the best possible manner. Once again from the bottom of my heart, I wish you divine favour, good health, prosperity and long life. Hoping you sparkle and shine during this festive season. May all your dreams and wishes come true, and you feel happiness all year round.
God Bless Us All !

ACTIVITIES OF THE MONTH

THE LITTLE Puppet Masters

Preschoolers studying in Grade KG-II were actively engaged in learning Puppetry. How do puppets help children's development? It might be surprising as a parent to know that kids playing with puppets learn a great deal. They have the potential to improve language skills, creativity, social awareness, and more. Lessons were instructed by Jaspreet Kaur Bajwa & Amritpal Kaur , Academic Supervisor.

The Unplanned Outings

Preschoolers studying in Kindergarten-II assisted by Harjinder Kaur, were actively engaged in 'Handkerchief Drop & Run Game'. The outdoors spark in kindergarteners was full of a sense of adventure. Participating in daily routine of traditional games outdoors aids in generating enthusiasm & experiencing joy of free movement for young learners.

Make a difference

Preschoolers studying in Grade Nursery participated in Tri-Cycling contest. School propagates cycling as an essential skill - enhances motor, coordination skills, improves posture & importantly, preschoolers experience Joy of INDEPENDENT mobility.

Mannat Kaur

Jaideep Singh

Let me EXPLORE

Preschoolers studying in Grade KG-II were actively engaged in 'Tunnel Ball Game' this month. Crawling on grass through tunnels on all 4's is an essential play experience - an important part of how kindergarteners learn and develop, test their physical limits, express themselves and build their self-confidence. Kindergarteners were supervised by Sannia Gulati, Form Tutor.

A Gist of Teacher's prayer

Development of a child is a harmonious blend of co-curricular activities and academics. Students are under stress during exams as they have to obtain good scores. In such conditions, there is a need for some extra activities. You cannot force a student to gain intelligence by reading books only. Co-curricular activities are also important just as academics. When a student is made to do academics and co-curricular activities simultaneously then only the harmonious development of the student is done. Students who participate in these activities need to learn time management. They learn to manage time and also learn how to keep themselves engaged in their leisurely hours. Students who participate in sports and other activities have better leadership skills and learn how to grow and build relations with one another.

Une Lettre De Mere: A Mother's Message

A big thank you to all the teachers for timely updates and taking such a good care of children. Children love all the activities, competitions which are being organized by BLPS. They get a chance to learn so many new things, apart from the studies, which will certainly boost their confidence level. Thus they shine differently from the students of other schools as well. Teachers, Co-ordinaters, Respected Principal ma'am all inculcate moral values in them also. The environment they get in BLPS is wonderful. Thank you to the entire team of BLPS which makes our children shine bright in future.

Sahila Gupta

Mother of Gyanam Gupta, Kg-I Commendables

Conversation questions
