RIDDHIMA SINGH
CLASS 6, SUMMER FIELDS SCHOOL, GURGAON

Pihu Gupta (KG-II Dazzlers) participated in INTACH's "Conserve Energy Challenge 2021" and secured a special mention. Children learning about energy efficiency and sustainability at home is helpful any time of the year. Pihu is conscious about saving energy - doesn't just help lower family's energy bills and impact on the planet, it also gives young kids a sense of environmental and personal responsibility.

CHRISTMAS A SEASON OF REJOICING

ALWAYS BE YOUR BETTERSELF

School's Kindergarten Wing held Self Introduction Contest for preschoolers studying in Grade Nursery. The event attracted participation by 49 preschoolers & was held as a hybrid learning event. The first time preschoolers had prepared their self-introduction based on 1) explaining who they are 2) what they do and what others need to know about them. The contestants were adjudged for a) Confidence b) Content c) Uniqueness d) Overall performance & e) Presentation. The young students came across as both Eager & Enthusiastic. Top honours were secured by Parineet Cheeda, Eshmeet Singh, Naira Kataria & Harnoor Singh.

Students studying in Kindergarten, celebrated a day full of exciting activities to usher in Christmas 2021. In the spirit of the holiday season, students came together with their teachers to participate in games and enjoy solo performances. The celebrations took students on a journey of music, play & giving!

Principal's Message

Dr. Ekta Dhawan

Dear Readers
Greetings to all !
With the start of a new year we are looking forward to the new possibilities. It's a time when we reflect with gratitude on the past and set our hopes and intentions for the days ahead. A new year gives us an opportunity to reinvigorate our enthusiasm for chasing goals and dreams. It's the time to start over, ride on it and make resolutions to achieve all the dreams we saw. New year gives new dimensions to our life. We should welcome it with new energy and enthusiasm so that our life becomes even better. Previous year was a turbulent one but we all were successful to make our way through the unprecedented times. Now with positivity we are ready to continue instruction by really learning the meaning of flexibility and patience. We believe in upholding high standards for commitment towards values and experiential learning, and keeping the same in mind, myriad opportunities are provided to students for grooming them into meritorious achievers in all fields. I must congratulate all the students for a successful series of variety shows which made us know the potential of our children.
It was also an effort to enable our ever-blossoming parent community to be apprised about our endeavours into collaborative learning. After a wonderful Christmas and New Year Holidays it's time to get back to school with raised spirits. I am so proud of all the accomplishments of our students this year and I just can't wait to see what they achieve in the next. Cheers to a new year, new beginnings. Wishing you and your families a happy, healthy and abundant 2022 !
God Bless Us All.

Kindergarteners studying in Grade KG-I were engaged in ' Clay Art/Modelling' contest. Students were assisted by their form tutors. Clay modelling is considered a proven stress-relieving hobby. Clay is one of the most versatile and easy to handle materials for learning sculpting. Due to clay's flexible nature, it's used by all age groups for sculpting and modelling. Indulging in regular clay art as a hobby encourages CREATIVITY in young students, helps them develop a different perspective about everything, which widens their vision.
Result announced:
• Chakshika • Avyan • Jasleen Kaur

IN THE POTTER'S HANDS

SPELLING BEE KINGS

Kindergarteners attempted to spell correctly and aloud the words assigned to them. The Players were eliminated when they misspelt a word and the last remaining players being the winner. The spelling bee is an old custom that was revived in schools in USA in the late 19th century, successfully adopted by schools in India. The Winners of Spell Bee Quiz Competition:

BE FIT, BE BETTER

School propagates, kindergarteners that play outside in all weather will grow up resilient, They're more positive, more creative, and more adaptable. Kindergarteners studying in Grade KG-I were actively engaged in P.T. lessons at the start of the school day, practising various stretching exercises. Young students derive enormous benefits from PT especially during winter mornings. Physically, it enhances their flexibility, strength, coordination, and body awareness. In addition, their concentration and sense of calmness and relaxation develops.

EMBRACE THE NATURE

Preschoolers studying in Grades Nursery, KG-I & KG-II celebrated 'Park Day'. Kindergarteners had got their favourite games to play and activities to do at the park, and active nature play is vital for so many aspects of a child's development. The fresh air, physical activity and bonding time are good for young students' health. Outdoor playtime helps them develop important social skills, motor skills, self-regulation and more. 'Park Day' experiences offer outdoor exercises in all forms - wonderful for children's health. With more room to run and play, young students can burn off extra calories and soak up the sunshine, increasing Vitamin D within their bodies and of course, breathe in fresh air! Our young students were accompanied by their respective form tutors and the Academic Supervisor.

A Gist of Teacher's prayer

There's nothing decent like teaching. I'm fortunate to be a teacher, because through teaching, I get to live my passion. I love working with kids. I love inspiring learning and its outputs. There's no better feeling than seeing one of our students finally 'get it'. Creative lesson plans and boundless energy are what I consider to be my hallmarks. I had the privilege of launching an entirely new curriculum at Bawa-Lalwani public school. One key to teaching kindergarteners involves making the experience fun. When students have fun in the classroom, teachers have greater success and a more enjoyable experience. With a few basic steps, students see you as an ideal kindergarten teacher.

- Harjinder Kaur

SONG OF THE MONTH

The wheels on the bus go round and round
Round and round
Round and round
The wheels on the bus go round and round
All 'round the town

The wipers on the bus go swish, swish, swish
Swish, swish, swish
Swish, swish, swish
The wipers on the bus go swish, swish, swish
All 'round the town

The driver on the bus goes 'move on back'
Move on back
Move on back
The driver on the bus goes 'move on back'
All 'round the town

The people on the bus go up and down
Up and down
Up and down
The people on the bus go up and down
All 'round the town

The horn on the bus goes beep, beep, beep
Beep, beep, beep
Beep, beep, beep
The horn on the bus goes beep, beep, beep
All 'round the town

The baby on the bus goes 'whaa whaa whaa'
Whaa whaa whaa
Whaa whaa whaa
The baby on the bus goes 'whaa whaa whaa'
All 'round the town

The parents on the bus go 'shh, shh, shh'
Shh, shh, shh
Shh, shh, shh
The parents on the bus go 'shh, shh, shh'
All 'round the town

Une Lettre De Mere: A Mother's Message

The School has built an excellent reputation in Kapurthala and its surrounding areas. During the Covid-19 pandemic children have been intensely affected in terms of their education, but BLPS has set an example in providing the quality education through the use of high ended technology. Being parents we were so worried how our daughter will manage all this, because this was her first year in the school, but BLPS really produced unbelievable results. By the effective use of modern technology, friendly behaviour and wonderful experience of the teaching and non-teaching staff of the school, my daughter is not only enjoying her studies but also learning new activities which school conducts time to time.

Adv. Seema Sethi
Mother of Tanisha Gulati (KG II-E)
