COURAGE FIRST; POWER SECOND; TECHNIQUE THIRD!

Kartik Gupta (KG II), has been actively engaged in SAVATE lessons - great way to productively channelise this packed energy in martial arts training. Some parents fear that martial arts may encourage aggression and violence in kids. But this concern is baseless and has no logic. Kartik qualified to compete in the finals of Punjab State Martial Arts Contest 2022. He participated in Weight - 28 KG - SANDA . He bagged Gold Medal. Also at the recently concluded Punjab State Inter School Savate (French Boxing) Championship 2022 Kartik participated in Weight Category - 25 KG. He bagged Silver in ' Assault Event '. His winning bouts involved a variety of techniques, including punching, kicking, dodging, jumping, parrying and blocking.

EVERY DAY IS A CHANCE TO LEARN!

Preschoolers were actively engaged in a game of 'Learning about Shapes' They are intrigued by many different shapes around them, we take steps to encourage our preschoolers natural curiosity.

IF YOU CAN'T FLY THEN RUN, IF YOU CAN'T RUN THEN WALK, IF YOU CAN'T WALK THEN CRAWL, BUT WHATEVER YOU DO YOU HAVE TO KEEP MOVING FORWARD!

The preschoolers were actively engaged outdoors 'Crawl and Jump'. Preschoolers' enjoyment is evident as they run hop, skip and jump from one end of the other.

Principal's Message

Dr. Ekta Dhawan

Dear Scholars
A happy summer vacation to all!
"Tolerance is possessing a heart or spirit that gives rooms at all times for people's weakness and imperfection with a view to foster peace and promote friendship".
The most yearning moment is on the horizon and that's your Summer Vacation. It's obvious that you have all geared up and premeditated about your visits and leisure activities back in homeland with your near and dear ones. But this time spend your holidays by being more sociable and extra vibrant in undertaking your plans, so that your vacation is made purposeful. To begin with, I wish and hope you will have fun filled learning experience in Virtual Summer Activities Camp 2022, an initiative taken by the school. Participate in this programme whole heartedly. Optimize every precious moment prudently by absorbing yourself in reading informative and enlightening books and resort to books on parables, so that you relate and apply them in real life. Improve on your speech skills by reading and watching stuff in English language and hone your vocabulary by adding newer words to your conversation.

Once again I wish you all a pleasant vacation ahead. Hope you all make every single moment eventful and memorable and return back with loads of experiences to share with your peers and teachers. I wish you safe travels and an abundance of joy, laughter, and love this summer with your family. Life is short and tomorrow is not promised, so please spread kindness-even to those who you may not want to, be grateful for what you DO have, and make the best out of today!

God Bless Us All!

ACTIVITIES OF THE MONTH

WALKING IS THE EXACT BALANCE BETWEEN SPIRIT AND HUMILITY!

Preschoolers were actively engaged in an interesting physical activity "Practicing Walking Balance". School propagates that Balance is a learned skill that requires physical and mental effort. As with many such activities, good balance skills come more easily to our preschoolers - they're lighter, more compact and more flexible. Practicing balance as a preschooler can help set kids up for a lifetime of grace and an awareness of positioning and movement of their bodies.

THERE IS STRENGTH IN NUMBERS, BUT ORGANIZING THOSE NUMBERS IS ONE OF THE GREATEST CHALLENGE!

Kindergartners were actively engaged in an Activity titled 'Grab the Number'. Hands-on number games are a fun way to expose preschoolers to number recognition and a great way to help kids learn how to understand numbers.

THE CREATION OF SOMETHING NEW IS NOT ACCOMPLISHED BY THE INTELLECT BUT BY THE PLAY INSTINCT!

Preschoolers were actively engaged in a game of 'King of Cones'. They enjoy the outdoors while, playing the game helps them in learning their left & Right.

WITHOUT EXPRESSION, LIFE LACKS SPONTANIETY!

Kindergartners were actively engaged in 'Theatre Tutorials - Creative Drama & Expression'. Engaging our young learners in creative drama and play provides an outlet for each them to express their thoughts, emotions. Acting out their thoughts and coming up with imaginary scenarios helps young students make sense of the world around them. This activity brings play, humour and laughter to learning. It improves motivation and reduces stress.

A GIST OF TEACHER'S PRAYER

Teachers play a key role in children's development not only by teaching them how to excel in school subjects, but also by teaching them how to be prosocial human beings. One reason for that is students tend to be more motivated to learn when their teacher cares about them. When teachers display congenial attitude towards their students, they 'learn better, faster and deeper.

LA LETTRE D'UNE MÈRE : A MOTHER'S MESSAGE

As a mother, I always aspired for a school with healthy learning atmosphere and teachers with magical powers for grooming and shaping my child. Luckily, I chose BLPS. I was quite anxious as to how my son will adapt from homely atmosphere at playschool to formal study routines at BLPS. But the induction programme helped the tiny tots to break the ice and soon they became friendly with teachers and their classmates. Daily, I see my son blooming into self-reliant kid with a cheerful personality. What more can a parent ask for!! Heartfelt gratitude to the affectionate staff of BLPS.
