PRINCIPAL'S MESSAGE

Dr. Ekta Dhawan

It is not in the stars to hold our destiny but in ourselves!
Greetings!
The quality of a school depends on the quality of its students. We have had such wonderful students who love and have remained attached to the school and have always been in touch. We look upon the school as a temple of learning. It is here, where we nurture our child's intellectual, emotional and physical wellbeing to transform them into happy and complete human beings. I am a staunch believer in the motto of our school that 'Each child is a new thought of God'. Our intent is to make a difference in tomorrow's citizens by empowering today's children, little by little. We create an environment where students are stimulated to put their best foot forward, while giving them the space to grow at their own individual and creative pace.

I can say with full confidence that we are going in the right direction and doing all things possible to achieve your ward's dreams and aspirations and wish to help them prepare themselves to face the world.
