HOLIDAYS: 13th, 14th & 26th January

VARIETY PROGRAMME 2022

DR. EKTA DHAWAN
PRINCIPAL

Dear Parents, Children & Well Wishers,

Warm greetings to all of you !

The New Year is the perfect occasion to appreciate all the good things that the past year has given us and all the good things that are yet to come. It has brought another chance for us to set things right and to open up a new chapter in our lives. I would want our children to aim high and stay focused on what they would want to achieve in the long run. My goals for the students are to be curious learners, be passionate about everything they do, be creative in their thinking, be able to work individually and in groups, be capable to look at problems from multiple perspectives and be lifelong learners. The BLPS fraternity aims at helping their students reach for these goals and include the achievement of these goals among the benchmarks for measuring success.

Last but not the least, I would like to wish all of you a great year ahead once again. May we continue aiming to walk in the path of glory and encourage our children to build success stories with grit and passion.

God Bless Us all!

CHRISTMAS CELEBRATIONS

PARENT'S NOTE

Manmeet Kaur
Mother of Harsifat Kaur
KG-II Commendables

The teachers of BLPS left no stone unturned to give the right education to the young buds even at the toughest time of our century. I am the witness of the evolution that is undergoing inside my daughter, Harsifat, from shy, cribbing kid to a well-disciplined, confident student. Every change that I have seen in her is just because of the able guidance of the Principal Ma'am and efficient execution of the other staff members. I really appreciate the space that has been provided for parents to communicate their grievances. I am highly thankful to all the members of school who are putting their efforts for the betterment of the future of our kids.

TEACHER'S NOTE

Ruby

Co-curricular activities are important just as academics. When a student is made to do academics and co-curricular activities then only a holistic development of the student is done. Students who participate in extra activities need to learn time management. As they have to manage time between academics and extra activities. Students who participate in sports and other activities have better leadership skills and learn how to grow and build relations with one another. That is why, as Kindergarten Instructor focus on both for the growth of a student in my classroom.

CONVERSATION
